VOLUNTEER TESTIMONIAL

Kristyl Horton RAMP, PMP, CCP

Asset Management Practice Lead at Martine Tiger Technologies

Testimonial

Volunteering with the IAM offers me the opportunity to contribute to a global community dedicated to improving how organizations manage value from assets. People often say, "asset management is everywhere and everyone does it," which is true in a broad sense. But having a structured framework reminds us that asset management is not just a concept—it's a discipline. It requires intentional planning, consistent application, and continuous improvement. Through this work, I help grow a shared mindset that elevates how people think about value, guiding the integration of people, process, and technology in a more purposeful and aligned way.
