## VOLUNTEER TESTIMONIAL

### **Shanmugasundaram Muthaiah**

Engineer - Asset Management & Enterprise Risk Management  
at Public Works Authority (Ashghal)

### **Testimonial**

Volunteering with the Institute of Asset Management (IAM) has been one of the most rewarding experiences in my professional journey. It has offered me the opportunity to contribute to impactful global initiatives—such as the update of the GFMAM Landscape, the IAM Anatomy Book, and several Subject Specific Guidance (SSG) updates.

Collaborating with professionals from diverse industries and backgrounds has broadened my perspective and deepened my understanding of asset management practices across the world.

# CELEBRATING OUR VOLUNTEERS

30 posts for 30 days in June

These experiences have not only supported my professional development but also reinforced the value of continuous learning and knowledge sharing.

To me, volunteering with IAM is more than just giving back—it's about connecting, contributing, and co-creating the future of our field with a global community of passionate professionals.

Let's keep building a stronger future for asset management, together.

Thank you IAM!
